PALLETS CASTILLO

Maderas Vicente Castillo e Hijos S.L.

Leading pallet manufacturing brand

Founded in 1931, **Pallets Castillo**, is one of the largest manufacturers of EUR-EPAL in Europe, with an annual production of approximately 4,000,000 million pallets.

Thanks to technological innovation and the improvements made in the production process, added to the fact that we have our own transport, it gives us the possibility of having sufficient stock to be able to supply our clients in the shortest possible time.

Why choose wood packaging?

CONFIDENCE

Wood is a strong and environmentally friendly material.

ENERGY EFFICIENT

Wood packaging requires less energy for production, is reusable, easily repairable and can be recycled.

EXPERIENCE

Wooden pallets have been used for more than 60 years, so the industry has a greater knowledge about this product.

VOLUME

Wood is the most popular material for the manufacture of pallets, accounting for more than 90% of the total volume.

SAFETY

Wooden pallets are less flammable than plastic pallets.

HYGIENE

Wood has lower levels of microorganisms, viruses, toxins and is an antibacterial material. This makes the wooden pallet the ideal packaging solution for more sensitive sectors.

DEVELOPMENT OF RURAL AREAS

Sustainable forest management for rural development is supported with new plantations.

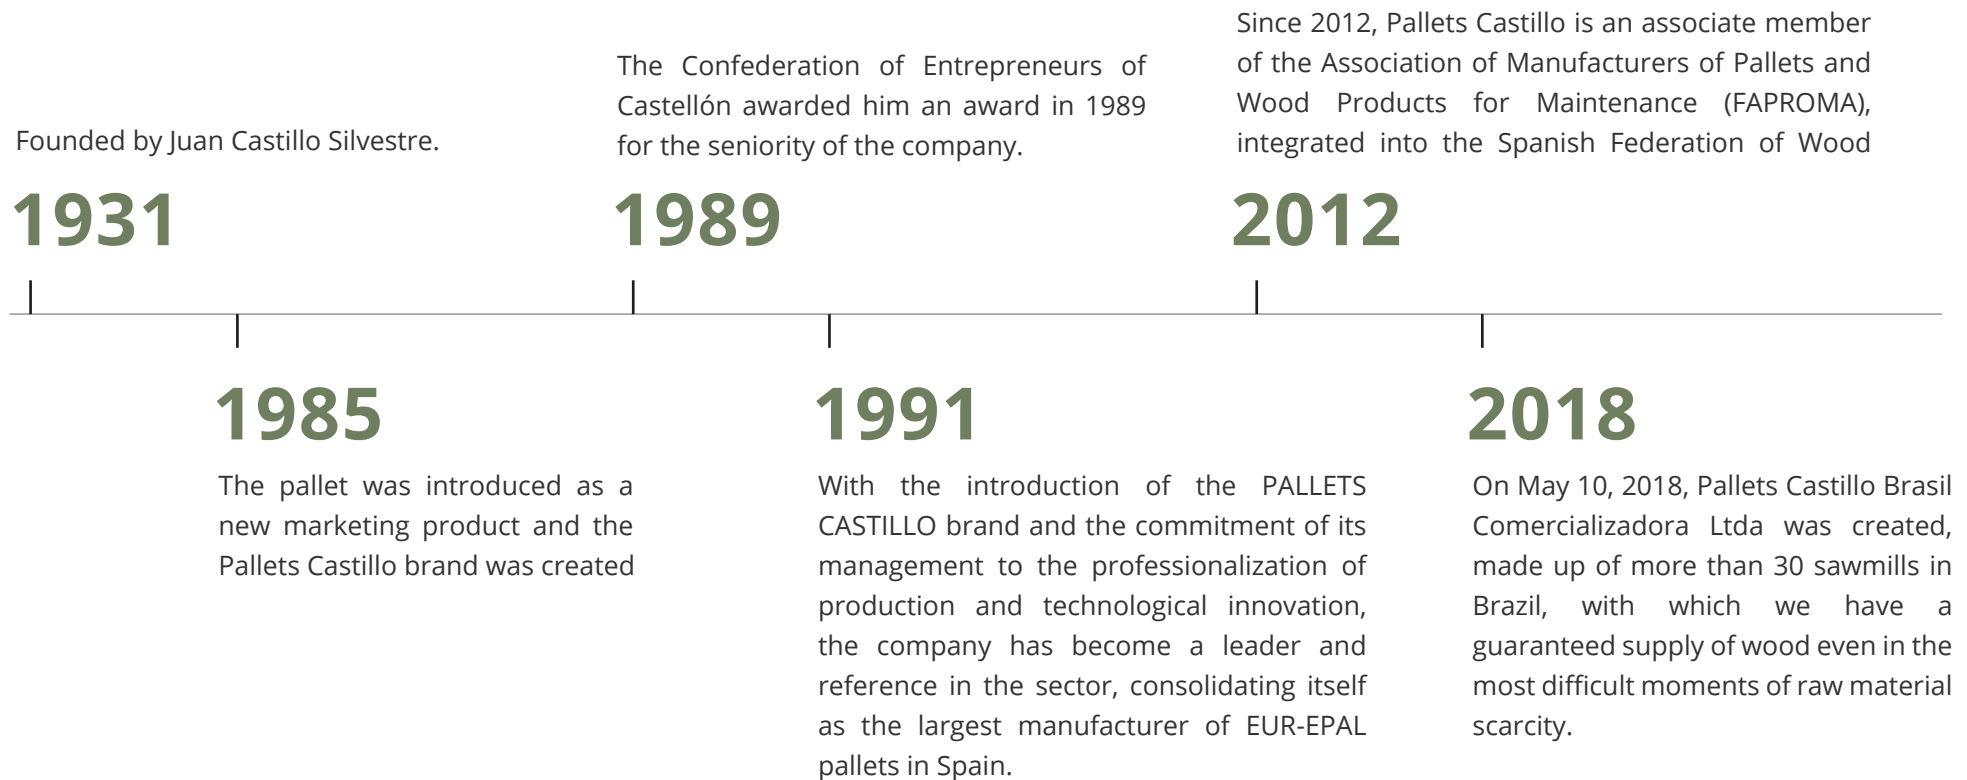

About Us

HISTORY

MADERAS VICENTE CASTILLO E HIJOS, S.L. was founded in 1931 by Juan Castillo Silvestre, the main activity being the sawing of tablets for the orange drawer. In 1970 he was taken over by the founder's son: Vicente Castillo Gargallo. Currently, the manager of this third generation company is Juan Salvador Castillo Górriz.

VISION

Continue to gain market share in the national territory to maintain the leadership as the largest national manufacturer of EUR-EPAL, supplying different industrial sectors, offering the best product, with the shortest delivery times and providing a professional service.

Pallets Castillo Brasil Comercial Ltda.

Certificates and Regulations

Our wood purchases are PEFC certified, which guarantees that our wood is purchased from certified sources and is managed sustainably.

FSC Certificate

FSC®: homologated pallet manufacturer from Spain, with the code SGSCH-COC-060019, which reflects our commitment to the environment and to the controlled and sustainable exploitation of the forests where the wood we use comes from.

PEFC Certificate

PEFC: pallet manufacturer homologated in Spain with chain of custody certificate number (ES14/16025) that arises as a voluntary initiative of the private forestry sector for the protection of Europe's forests.

EUTR Normative

The purpose of the European Union Timber Regulation (EUTR) is to stop the illegal timber trade in the EU. Regulation is an important element of the EU Forest Law Enforcement, Governance and Trade Programme, FLEGT.

SGS

SGS is a world leader in inspection, verification, analysis and certification. It is considered the world's leading benchmark in quality and integrity.

HT Certificate

HT heat treatment: We are homologated with the HT code ES-012-0009, which guarantees our compliance with the European regulation ISPM-15 for packaging material, being suitable the product for export to any country in the world..

EPAL Certificate

This regulation gives us the certification to manufacture and / or repair Europalets and EPAL pallet boxes, thus contributing to the system of exchange of logistics material that operates mostly in the world.

Products

HOMOLOGATED EUROPALLETS OF PRESSED BLOCKS OR SOLID WOOD.

EUR-EPAL: first homologated manufacturer in the province of Castellón, with the number E-019, a product in which we are national leaders in production and sales. Since 2013, EUR and EPAL interchangeable.

PALLETS CP MODEL CHEMICAL PALLETS.

Chemical Pallets: homologated with the code CP-1045 for the manufacture of this type of pallets.

TWO-WAY AN FOUR-WAY PALLETS.

Our company can manufacture any type of pallet with 2 inlets (bars) and 4 inlets (studs) adapting the pallet to the needs of the client, according to the type of load and the weight that the pallet has to support.

SECOND HAND PALLETS.

We can supply second quality pallet depending on the use that the client will give it.

PALLETS WITH HEAT TREATMENT.

HT heat treatment: We are homologated with the HT code ES-012-0009, which guarantees our compliance with the European regulation ISPM-15 for packaging material, being suitable the product for export to any country in the world.

SAWN WOOD.

We sell wood in all types of sizes, according to the needs of our customers for sale in international markets.

Sustainability

THE GOAL OF EVERY ORGANIZATION IS TO CREATE ECONOMIC VALUE, BUT AT THE SAME TIME THEY MUST ALSO BE TO PROTECT THE ENVIRONMENT AND CREATE SOCIAL VALUE.

CONCERNED ABOUT THE ENVIRONMENT

Pallets Castillo in collaboration with the City of Soneja will plant trees in the area of the Palancia River, a very busy area in the town. The goal is to remodel this area with native trees and eliminate other invasive plants that are altering the ecosystem.

WE RECYCLE AND REUSE

Different collaborators collect the waste generated in our production process, in order to offer them a second chance, in the elaboration of other products (pressed blocks, energy, livestock uses, etc.).

GREEN POINT

In Pallets Castillo we have our "Green Point", it is a place where we can recycle the rest of the waste generated, outside the production, such as glass, plastic, cardboard, batteries and waste electronic. The objective of the "Green Point" is also to involve all workers for a responsible use of resources and to implement the habit of recycling in their Lives.

Social Responsibility

SPONSORSHIPS

Pallets Castillo, is the official sponsor of all the categories of CD Soneja, the first team and the lower categories of the club. With the sponsorship of CD Soneja we intend to transmit our values of commitment, hard work and respect for the different categories of the club. It's a fun and healthy way to transfer values to younger people.

SOLIDARITY PROJECTS

We collaborate with the Red Cross in its project to support the most vulnerable people in our country, offering them tools to improve their employability with the Employment Plan of the Red Cross and social support actions with deliveries of basic necessities (food, payments of bills for basic household supplies, medicines, etc.).

COMMITMENTS

As far as the War in Ukraine is concerned, in collaboration with the City Of Soneja, we have made shipments of basic necessities to that country. We will continue to collaborate in future shipments that are made.
